French  
English

Please, customized your message:

Hey guys, I have shared with you an event on LINKAVIE so that you can all have access to it, post comments and more.

Cancel

Send

If checked, the recipients will be able to view, access the active event and synchronize the event shared contents. When synchronizing, the user will have all the related multimedia contents in his personal vault and library. If not checked, user will have a Read access only to the event contents shared, up to the event expiration date with no capability to synchronize the content to his personal space.

If checked, the recipient will have full access and permissions to the content when synchronized into his personal space and will be able to share the contents to other people.

Default is the user browser based

Only if "Allow Sync" checked
