Screen 1

"Welcome Screen" and "About Screen"
This screen is the first screen shown to the user.
It will display the first time the user opens the application

1.2

Welcome image is in .png format
Will be provided.

1.1

social icons are in .png format.
Will be provided.
Action: Each linkable to a website to be provided

1.3

Continue button.
Action: Button will take you to screen 2 if this is the first time using the app
Button will return you to previous screen if tapped from the footer icons.

Screen 2

"List Screen"
This screen by default will show results based on users current location. If current location cannot be determined a message indicating "Cannot determine current location please enter an address or city." should be displayed.

2.2

Location icon. When pressed results will be refreshed based on users current location. If current location cannot be determined, above message in "Screen 2" should be displayed.

2.4

Cancel Button.
Cancel button should not be displayed until the focus is on the search field. If the cancel button is pressed, search field is cleared and cancel button is hidden again

2.6

Favorites Toggle.
When toggled on, list should refresh only displaying favorites. When toggled off, list should return to previous results. Screen 5.

2.7

"Maps Screen"
When pressed, Screen 4 should be displayed with the current view, which may be the current location or a location that was typed in the search field

2.9

Submit.
When pressed, Screen 6 should be displayed

2.10

About.
When pressed, Screen 1 should be displayed

2.1

Logo image is in .png format
Will be provided.

2.3

Search field.
When user taps on field, keyboard pops up allowing user to type in an address. When the user presses the return button results will be displayed based on entered address. If entered address is invalid, display the message "Address could not be determined. Please reenter address or use the current location button in the upper right."

2.5

Results.
Great Lakes Brew Fest 
Chicago, IL January 15, 2014

Upper Left: Title.
Upper Right: Star Rating. If Rating is 3, first three stars should be solid final two stars are outline only.
Lower Left: City.
Lower Right: Start Date.
When tapped anywhere on a result, Screen 3 is displayed.

2.8

Date Filter.
When pressed, a selection box will appear allowing for a date filter to be selected. Possible options are listed on Screen 2.
Date filter should be saved and used each time the application is started. Needs indicator stating what filter is currently selected.

Screen 3

"Details Screen"

This screen displays the details of one result

3.1

Back Button.

Should return the user to the previous screen

3.2

Add to Favorites / Remove from Favorites

When clicked, venue should be added to the favorites list or removed if already added. Wording should change to reflect the state.

3.3

URL.

Visible only if data is available
Clickable - opens Safari.

3.4

Twitter.

Visible only if data is available.
Clickable - opens Twitter app or Safari

3.5

Facebook.

Visible only if data is available.
Clickable - opens Facebook or Safari

3.6

Brewfest Rating.

Should show black outlined stars if no rating.
Yellow outlined stars if rated by others but not user.
Yellow solid stars if rated by the user or when user is selecting a rating. User can change his/her rating.

Screen 4

"Map Screen"

This screen displays the same information as the "List Screen" but in map/push pin view.

4.2

Map Push Pins.

When a push pin is selected, display a box as shown with the start date of the brewfest, the name of the brewfest, and the rating of the brewfest.

4.1

Map.

Multigesture allows zoom in and out. Max zoom out 10 miles. User can move map within the United States and app will refresh data based on central point on map.

4.3

Map Data Box.

When tapped anywhere on the box, Screen 3 should be displayed

4.4

"List Screen"

When pressed, Screen 2 should be displayed with the current location selected, which may be the current location or a location that was typed in the search field
