User defines files categories (subfolders)

If no date, apply date of the day

File size limit: 20MB ?

Document HELP popup:

« All files will be stored in your defined or selected folder, and organized by categories (sub-folders) that you apply to your files. Those categories can be added or changed later by the Edit Files Button of the Vault.

In the Document vault, you'll be able to view your documents per folders and categories or by categories only. »

Picture/Video HELP popup:

« All files will be stored in your defined or selected folder, and organized by folders date.

In your vault, you'll be able to change folder dates as you wish and have different views of your multimedia contents. »
