

Alpha 2

scope of work

17/02/2014

Vault

[Excel ref:](#) Preview : Picture description below preview when eye clicked
an maintained

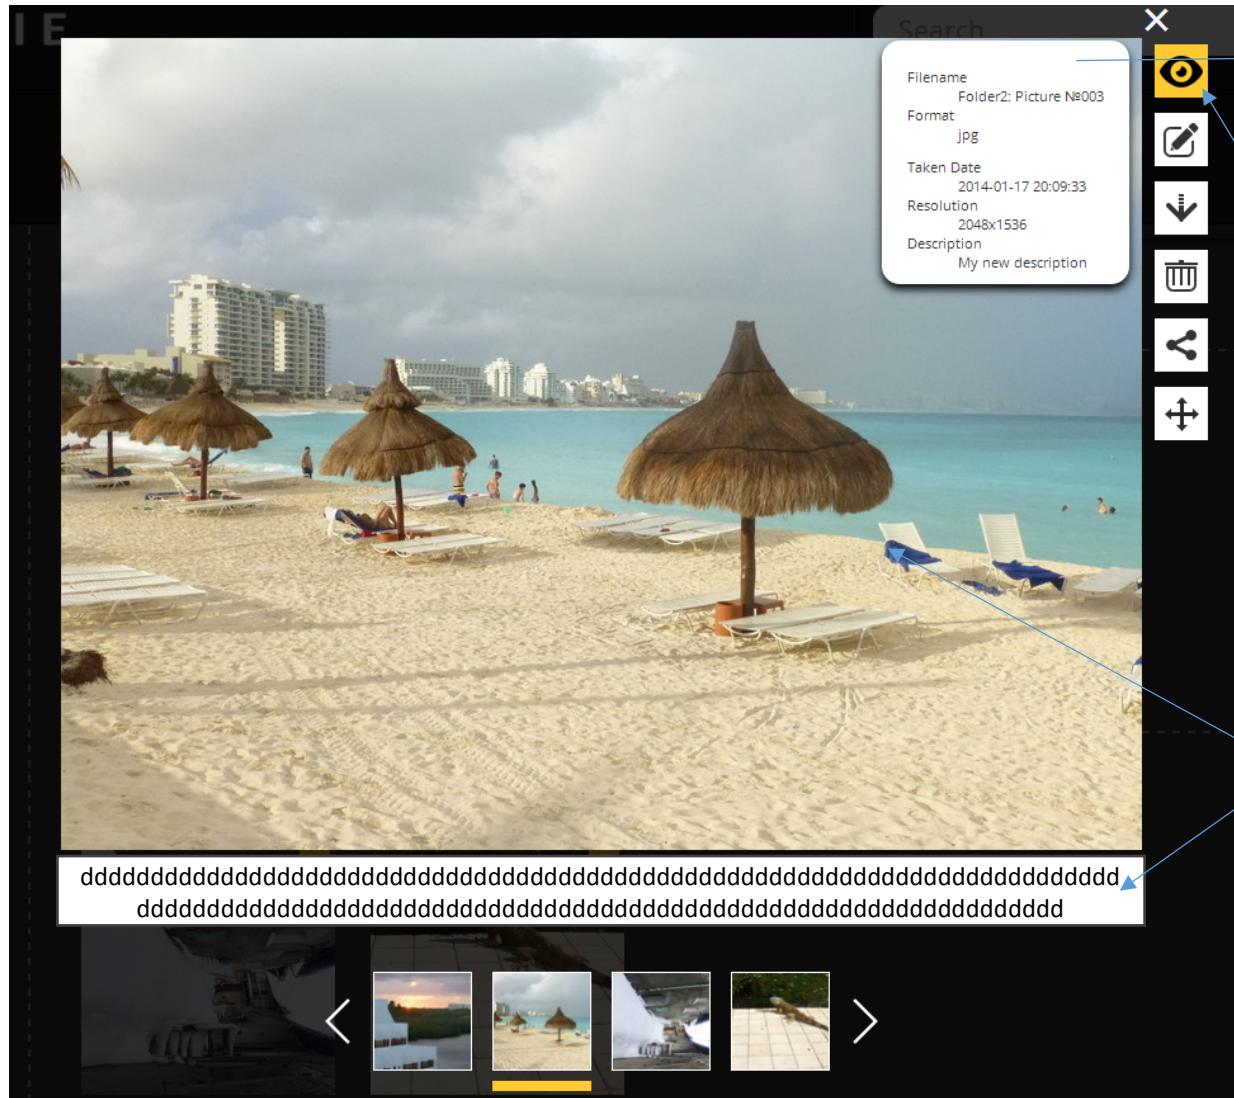

[Excel ref:](#) Vault right buttons logic to review: Today, not intuitive
between folder level and file level (Same buttons at both level)

[Excel ref:](#) Vault offset mgt

Features

1. Description stay when click on eye
2. Vault Flickering
3. Vault button logic
4. Vault offset mgt

View informations / files download for view management

Mouse over eye ok. Change with the following look&feel

File name: 2011_02_23_nice animal_03.jpg

File size: 2MB

Shooting date: 12/01/2012

Resolution: 1800x1420

Picture description:

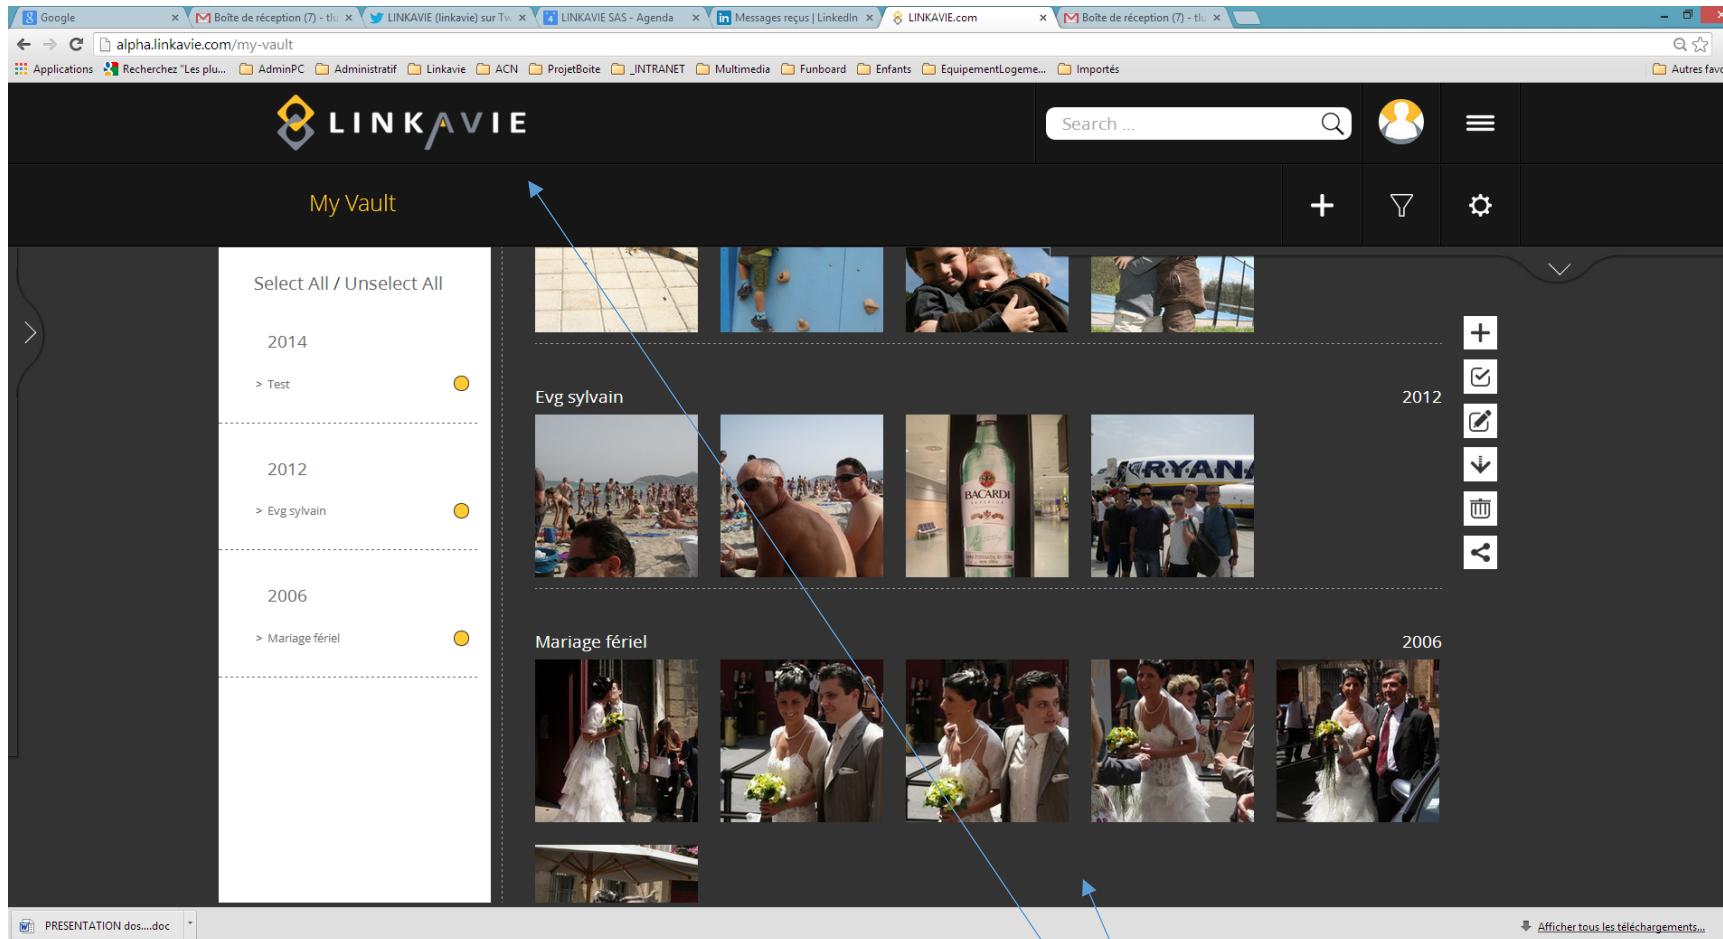

Look how nice is this animal. Really impressive !

The user should be able to click and keep the eye orange.
When eye clicked, makes the “picture description” mode ON
and appear below pictures. 140 characters max. When user go
to next picture, show the related picture description (if any).

If user clicks again on the eye, “Picture Description mode” is
OFF

Download for view of files should be anticipated so that when
a user selects 10 files, he don't have to wait for each file to be
downloaded when he views it for the first time.
=> How can we optimize this ?

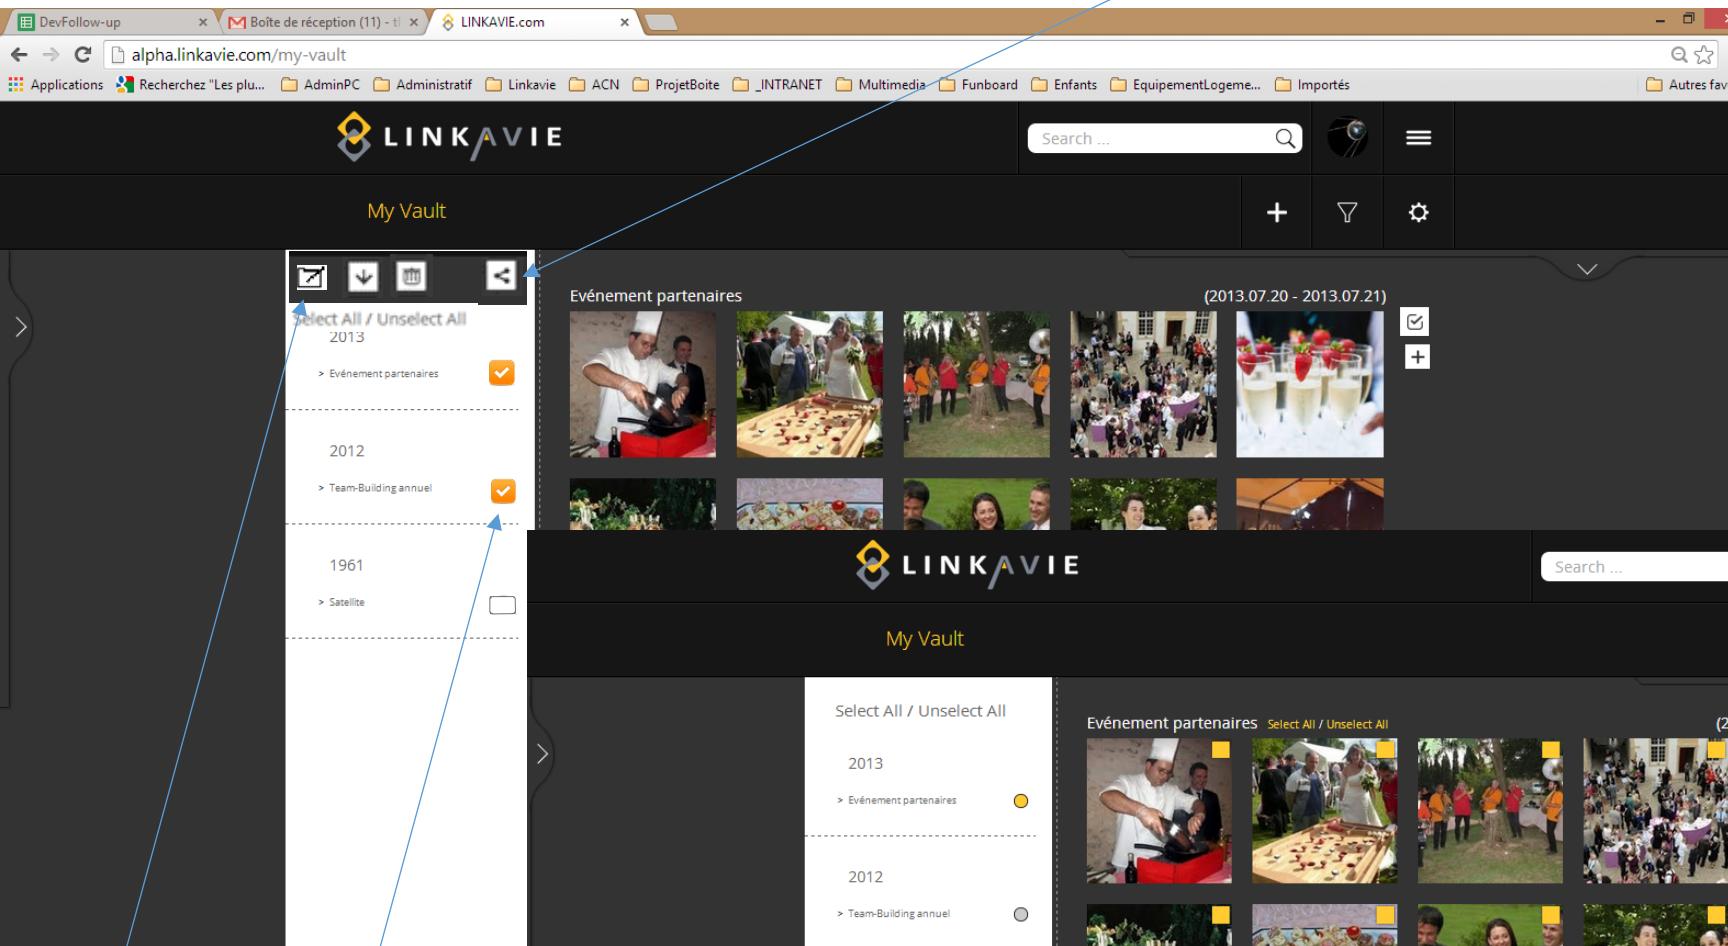

Navigation

When I go to the vault page , Flickering when going down down the vault. If I do a CTRLF5, not the problem anymore

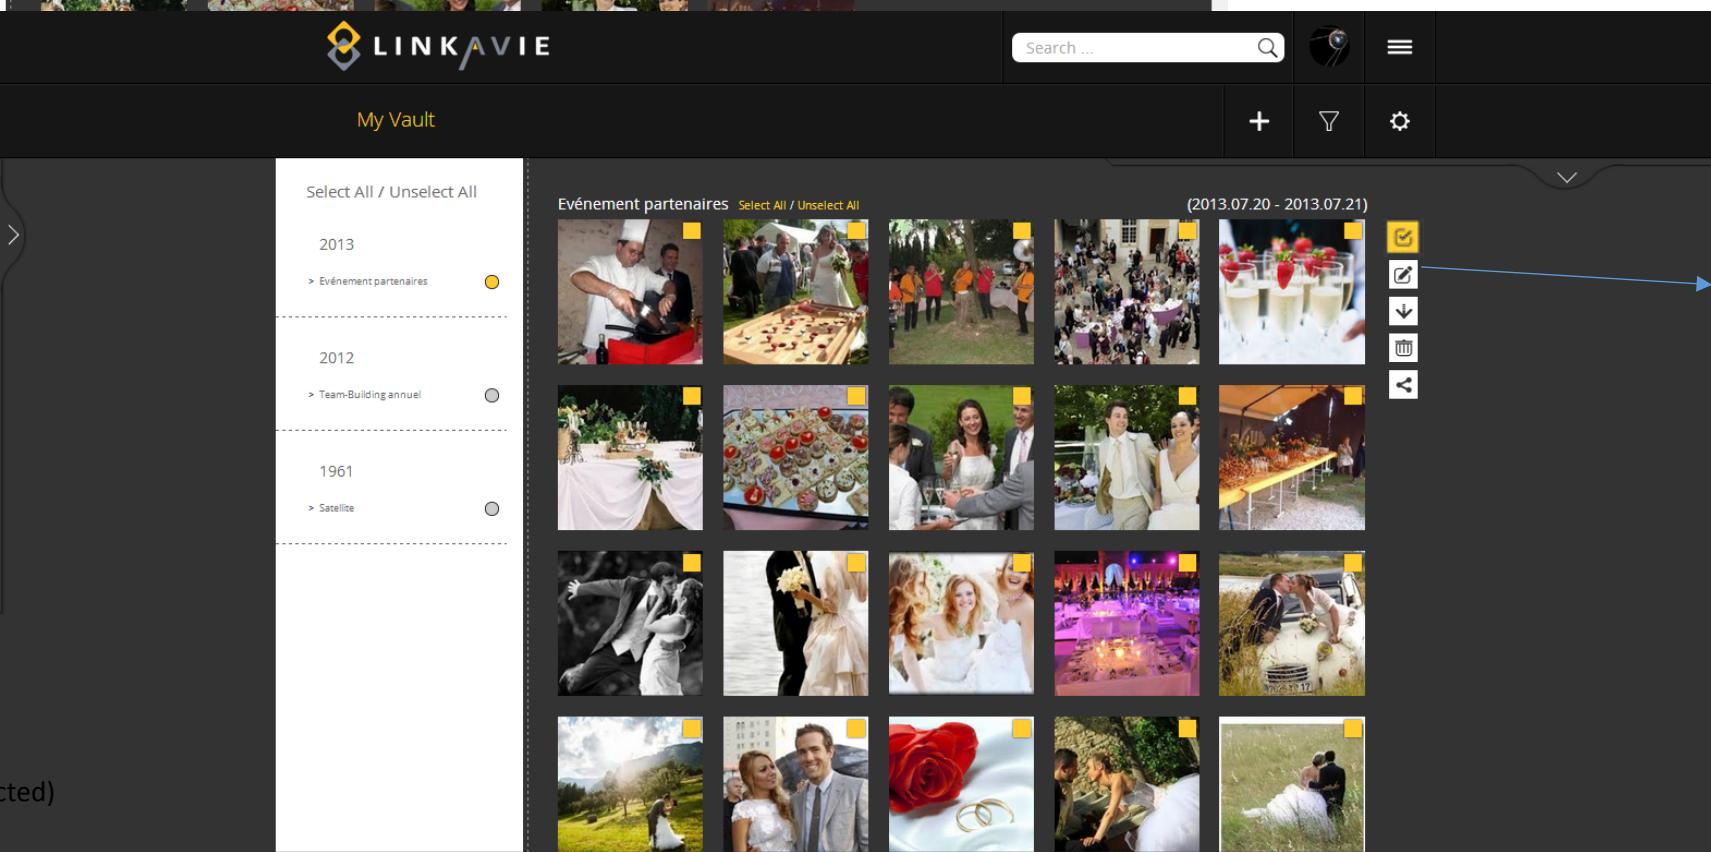

Vault buttons logic (changes)

Folder Buttons slide down when mouse over folder zone

EDIT folder properties
= A folder with a pen

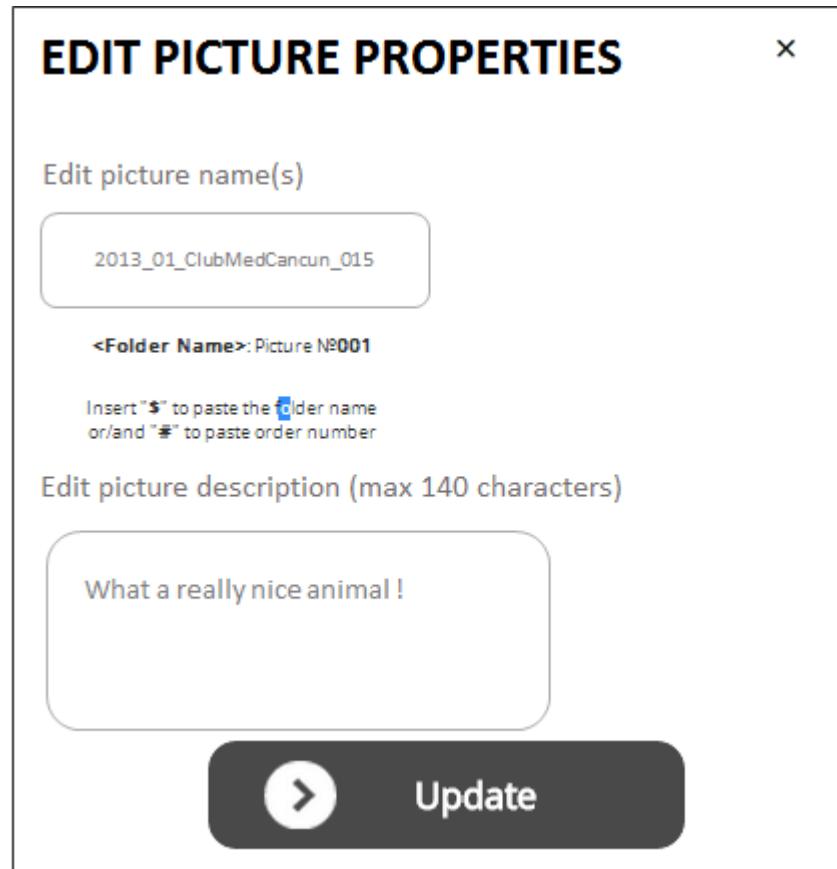

Change circles by check boxes (White
If not selected / orange checked if selected)

EDIT FILE LEVEL

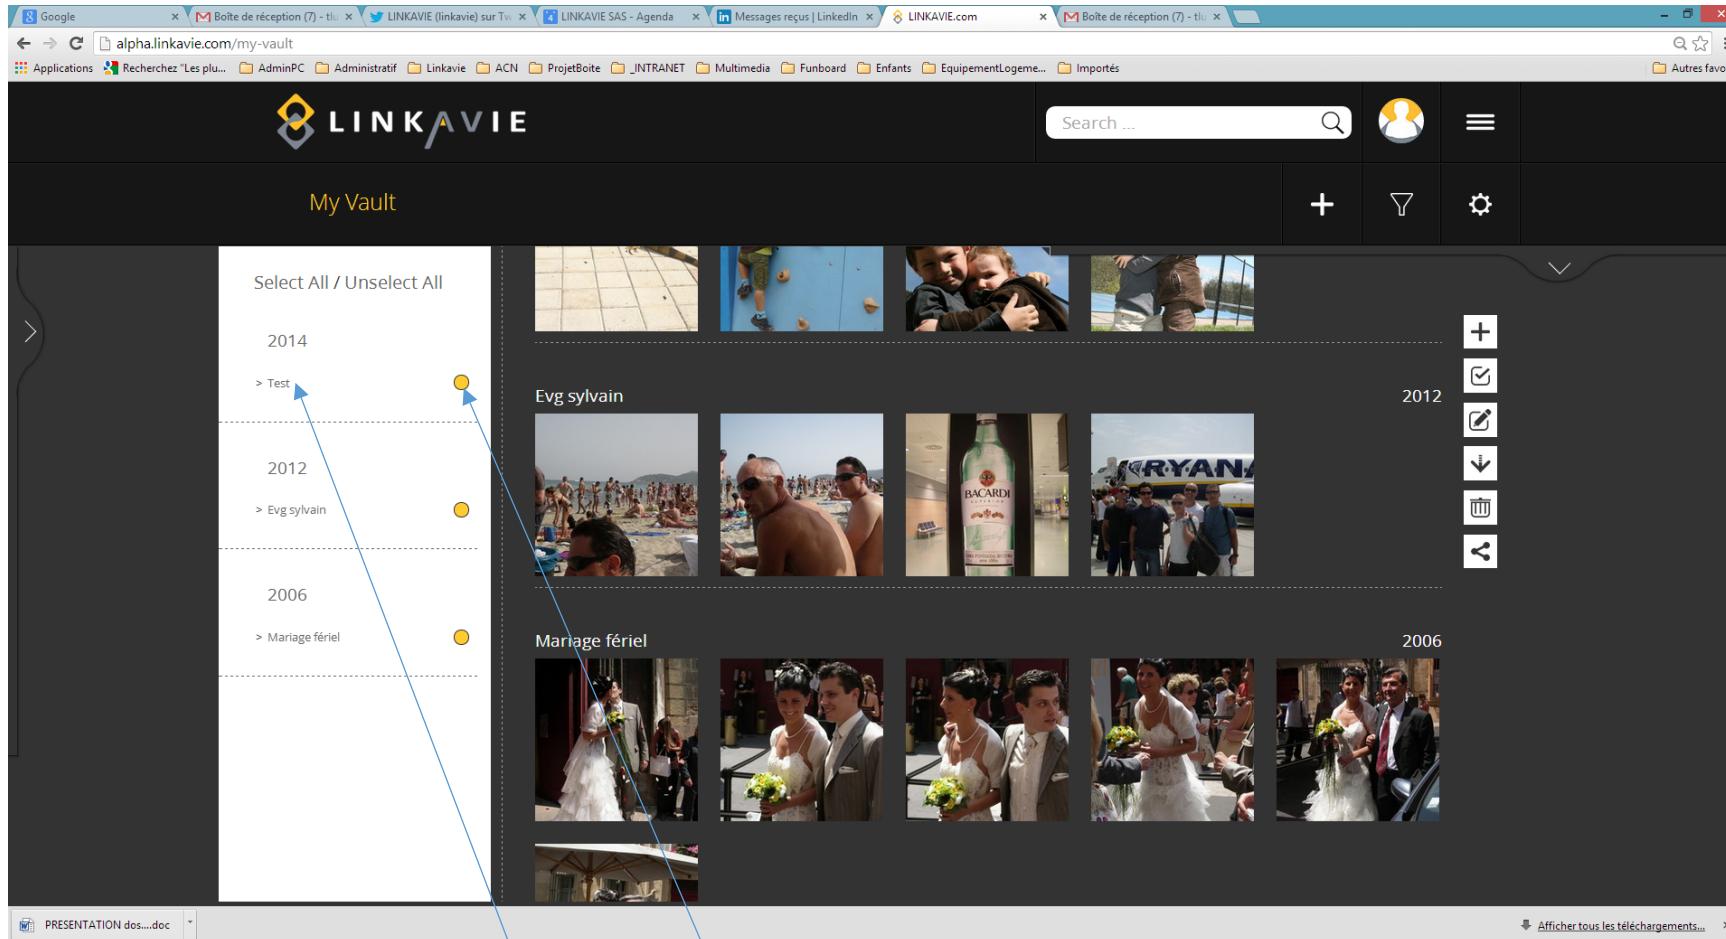

Edit picture properties
(see next slide)

Edit Picture properties from vault edit menu

Hide if several pictures selected

Navigation

Show/hide folder (like today)

Click on the title to slide down-up to the right offset (No show/hide folder feature)

New uploader

[Excel ref:](#) Change the uploader in order to upload folders, parallel uploading and for more stable work

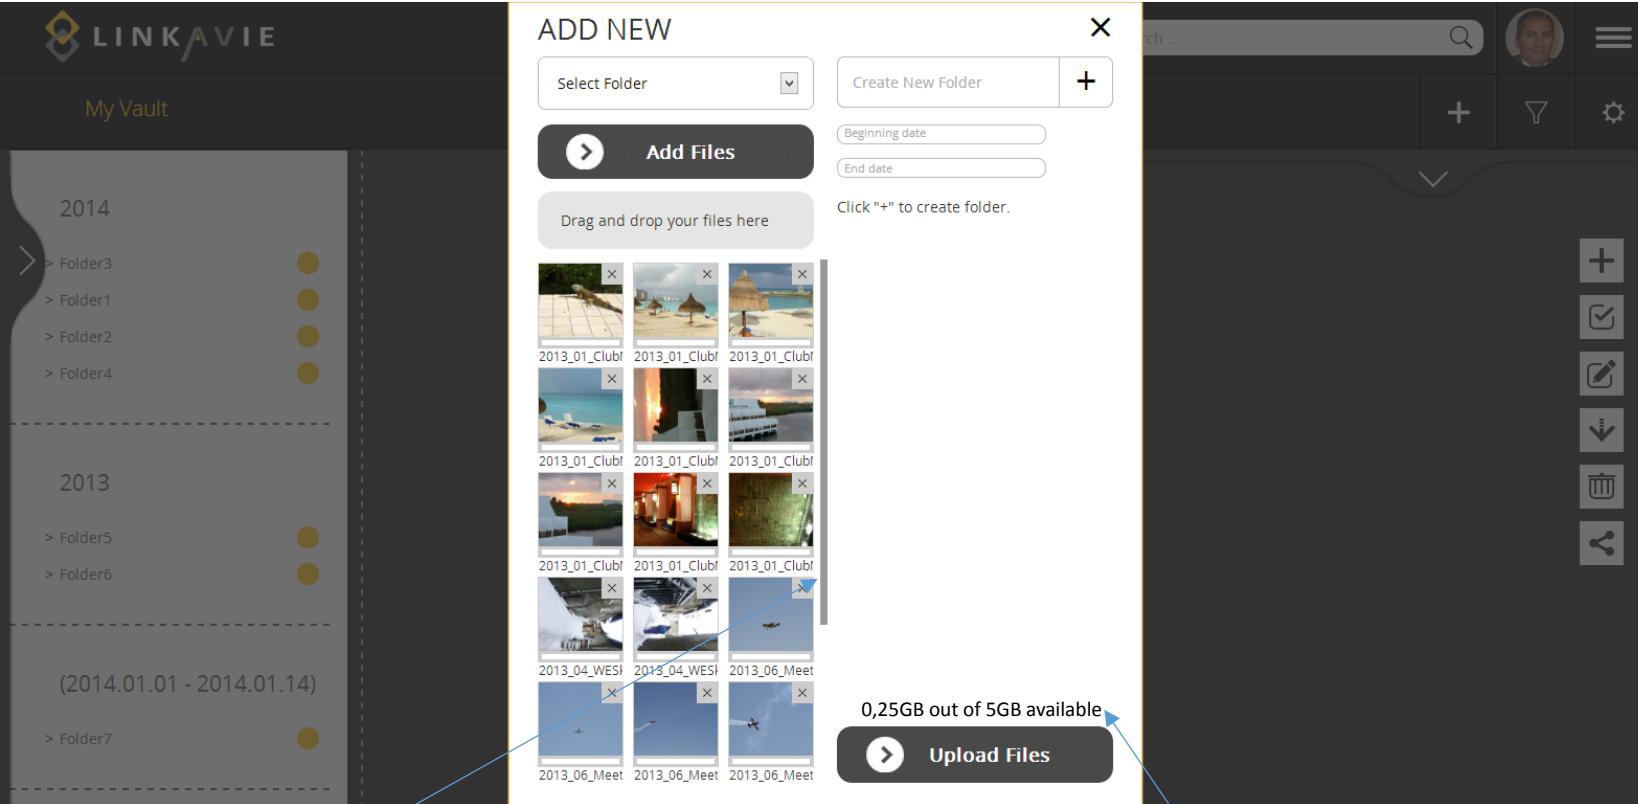

[Excel ref:](#) Adding files window: Manage storage versus user entitlement

[Excel ref:](#) Import: Select folder with subfolders or drag&drop folders and subfolders - keep only supported files (pictures for now)

Features

1. More stable
2. Parallel uploads with better progress bar management
3. Upload folders and subfolders: Should we limit to a max number of simultaneous files?
4. Resolve “removing previous items from list not possible”
5. Manage items capacity versus storage entitled with message
6. Closing window before end of upload (scenario2)
7. Cosmetic

New Uploader (1)

The sliding bar here is flickering, freezing some times

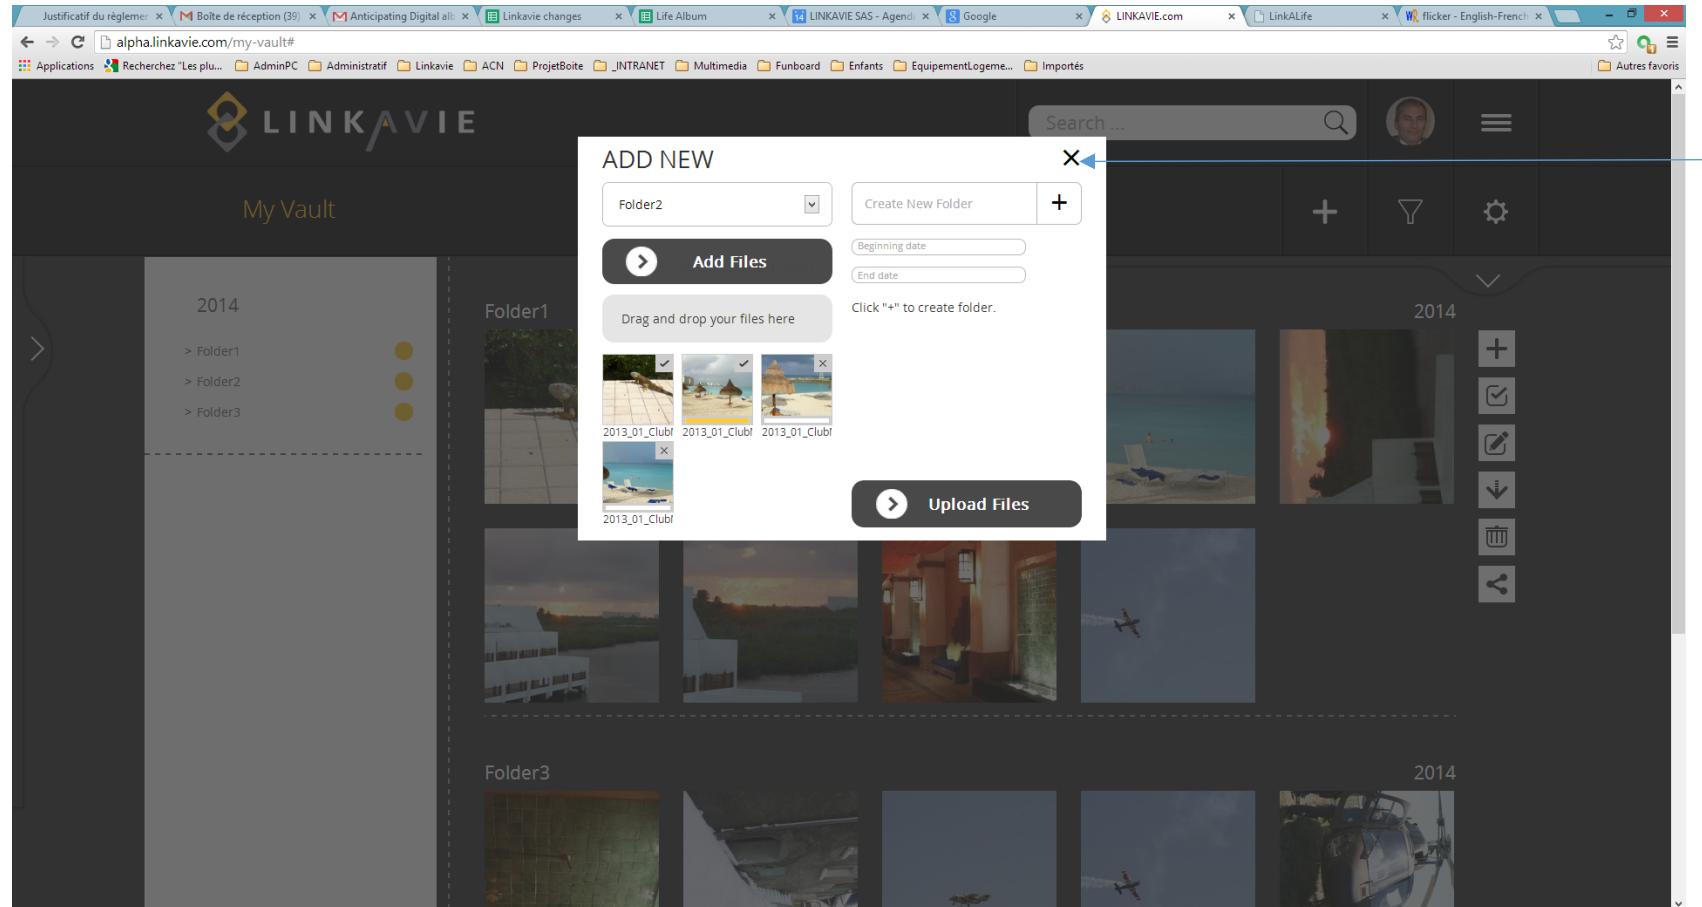

7,6GB out of 5GB available !

Show the weight (in GB) of selection versus available storage
(Specs5.6.1)

If the user put too many files, change the text color in red and
the user cannot click on "Upload files"

New Uploader (2)

Closing Window Alpha 2

Scenario 2:

If interrupted in the middle of the process, we can keep the pictures properly uploaded, the one that is being uploaded is not uploaded, but then we should refresh with another message

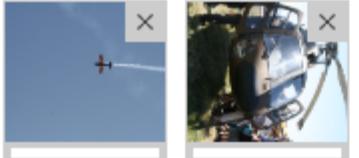

"The uploading process has been interrupted. The files that could be processed have been uploaded successfully"

ADD NEW

Select Folder or [create new folder](#)

Add Files

Drag and drop your file

2013_06_Meet 2013_06_Meet

ADD NEW

Select Folder or [Create New Folder](#)

Add Files

Drag and drop your files here

2013_06_Meet 2013_06_Meet 2013_08_Vaca

Define folder date or period:
 Beginning date 
 Do you want to define a period ? 
 End date 

"**ADD Files**" or Drag&Drop your files and click on "**Upload Files**" to upload files in your new folder
Or simply click "+" if you just want to create a new folder

Upload Files

Your folder has been created successfully!

if user clicks on "create new folder", then the select folder should go back to "select an existing folder" (if there were a folder name selected)

Date format here: 2013/11/25 (Not 25 November 2013)

By default end-date = begin date

In order not to confuse the user, **in case we are doing "Create folder + upload files" at once**, then because the folder is created right away, please change the message "**your folder has been created successfully!**" by "**your folder has been created successfully...Your files are now uploading!**"

Hidden if "period" not selected not selected

Upload pictures

Pictures uploaded view is in wrong order. Should be from first to latest according to shooting date (exif)

Show period with this date format
03 Aug 2013 – 18 Aug 2013

The screenshot shows the Linkavie mobile application interface. At the top, there is a navigation bar with the Linkavie logo, a search bar, and user profile icons. Below the navigation bar is a toolbar with a '+' button, a filter icon, and a settings gear icon. On the left side, there is a sidebar titled 'My Vault' with a 'Select All / Unselect All' checkbox and a year selector for 2013. A specific folder named 'Corsica' is selected, indicated by a yellow dot next to it. The main content area displays a grid of 12 vacation photos from Corsica. One photo in the top-left corner has a callout box showing its metadata: Filename: 2013_08_Vacances Corse_020.JPG, Format: jpg, Taken Date: 2014-02-17 22:11:24, Resolution: 2810x1880. The photos show various scenes from a vacation, including people on a boat deck, a person on a jet ski, and scenic views of the sea and coast. To the right of the photos is a vertical toolbar with several icons: a plus sign, a checkmark, a pencil, a downward arrow, a trash can, and a share icon.

exif file management

[Excel ref:](#) Exif information of photos (shooting date...)

Features

1. Vertical picture management for uploads and vault
2. Vault: Manual rotate by 90° right/left pictures (mouse over picture button)
3. Show shooting date on the vault

Vertical Picture uploaded

The screenshot shows the Linkavie application interface. At the top, there's a logo with a stylized orange 'L' and 'A' followed by the text 'LINKAVIE'. To the right is a search bar with a magnifying glass icon, a user profile picture, and a menu icon. Below the header, the title 'My Vault' is displayed, along with a '+' button, a filter icon, and a settings gear icon.

The main area is divided into sections. On the left, a sidebar shows a file tree for the year 2014, listing 'Folder1', 'Folder2', 'Folder3', 'Folder4', and 'Folder5' with corresponding yellow circular icons. Below this is a date range '(2014.01.14 - 2014.01.23)' with another yellow circular icon.

The central part of the screen displays a grid of photos. A blue line highlights a specific photo of a lizard on a tiled floor, which is also shown in a larger view below. Other photos include a beach scene with umbrellas, a wall with green tiles, and a landscape with mountains. To the right of these images is a vertical toolbar with icons for adding (+), checking (checkbox), editing (pencil), deleting (trash), and other functions.

At the bottom, a navigation bar includes 'Fichier', 'Édition', 'Affichage', 'Dossier', 'Photo', and 'Création' with their respective icons. A sidebar on the right lists 'Albums (1)', 'Personnes (17)', 'Projets (1)', 'Captures d'écran (6)', 'Dossiers (456)', and several folder entries like '2013_12_JourDeLan (70)', '2013_12_Noel (131)', 'PhotosTestLinkavie (19)', '2013_01_ClubMedCancun (158) 2011', and '2011_12_NouvelAn (97)'.

Vertical pictures should be turned in the right direction, like here + Manual turn

Cosmetic

[Excel ref:](#) Cosmetics from alpha sharing/close upload popup/add popup/make all site sizes smaller on 75% + reduce header vertical depth

L'histoire des satellites

Spoutnik - Le lancement

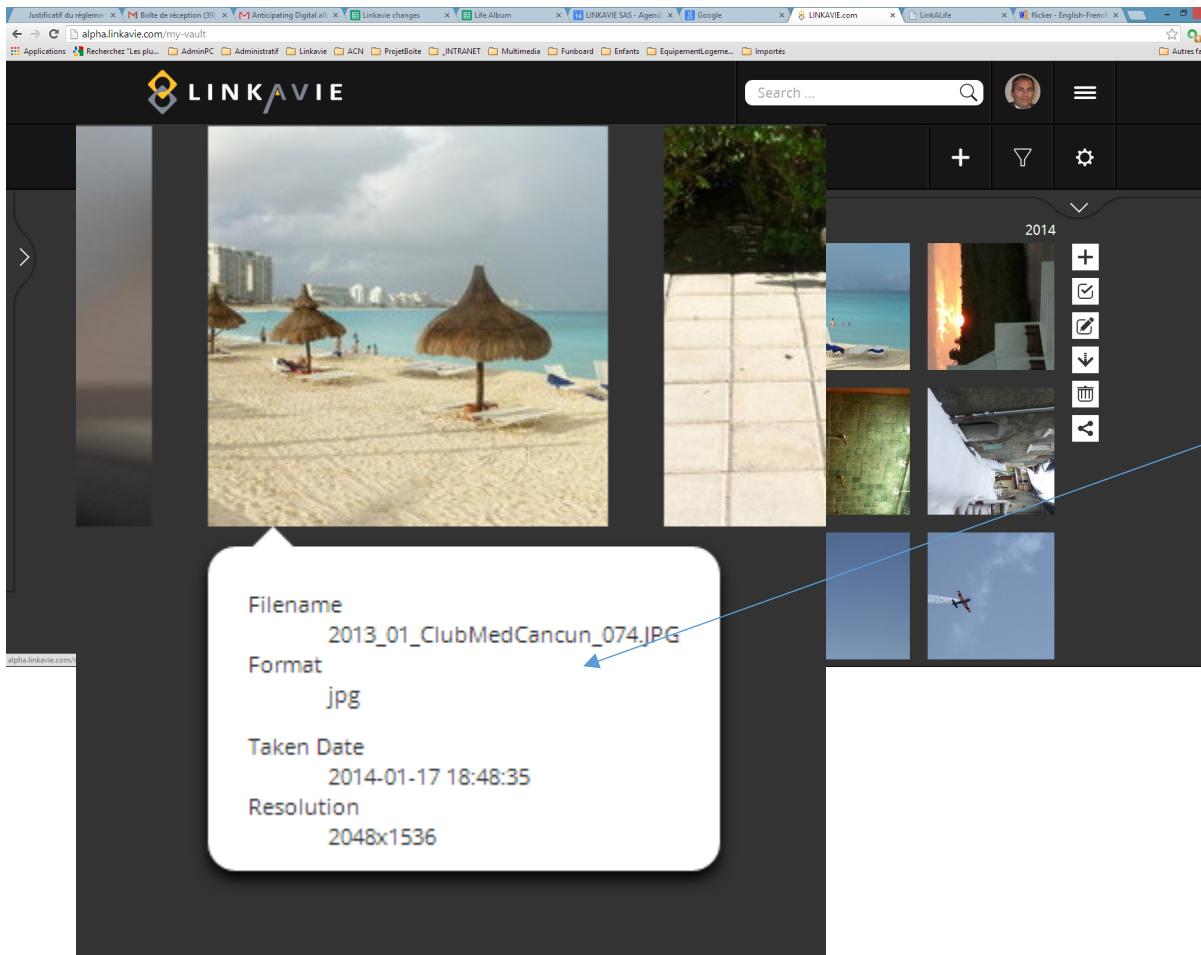

Data Assigned: 4 October 1957 - 4 October 1957

Sputnik 1 a été le premier satellite artificiel de la Terre. Lancé par l'URSS et mis sur orbite le 4 octobre 1957, par la fusée R-7, conçue par l'ingénieur Sergueï Korolev : pour des raisons de secret et de sécurité, son nom n'est pas dévoilé. Le KGB présente à la presse occidentale Leonid Sedov, physicien membre de l'Académie des sciences de Russie, comme « le père du Spoutnik ». Il s'agissait d'une sphère de 58 cm de diamètre, pesant 83,6 kg. Satellisé sur une orbite elliptique à une altitude comprise entre 230 et 950 km, il tournait autour de la Terre en environ 98 minutes. Sa seule fonctionnalité a été l'émission d'un « bip-bip » sur les fréquences radio de 20,005 et 40,002 MHz.¹

Ce lancement fut vécu comme un véritable traumatisme par les Etats-Unis, plusieurs journaux comparèrent cet événement à un Pearl Harbor technologique. Il prouvait, selon eux, que les Soviétiques

- Move up a bit so that the first block, if a gallery, can be seen entirely on a ipdad. User should see at minimum:
- The carrousel entirely
 - The picture description below
 - The navigation and counter
 - 1 text block line

Vault mouse over picture cosmetic

Police is a bit too small
Put a separation between technical info and description

File name: 2011_02_23_nice animal_03.jpg
File size: 2MB
Shooting date: 12/01/2012
Resolution: 1800x1420

Picture description:
Look how nice is this animal. Really impressive !
If there is longer text, go to a new line

Limit the width of the window and if description over 50 characters, put text to next line

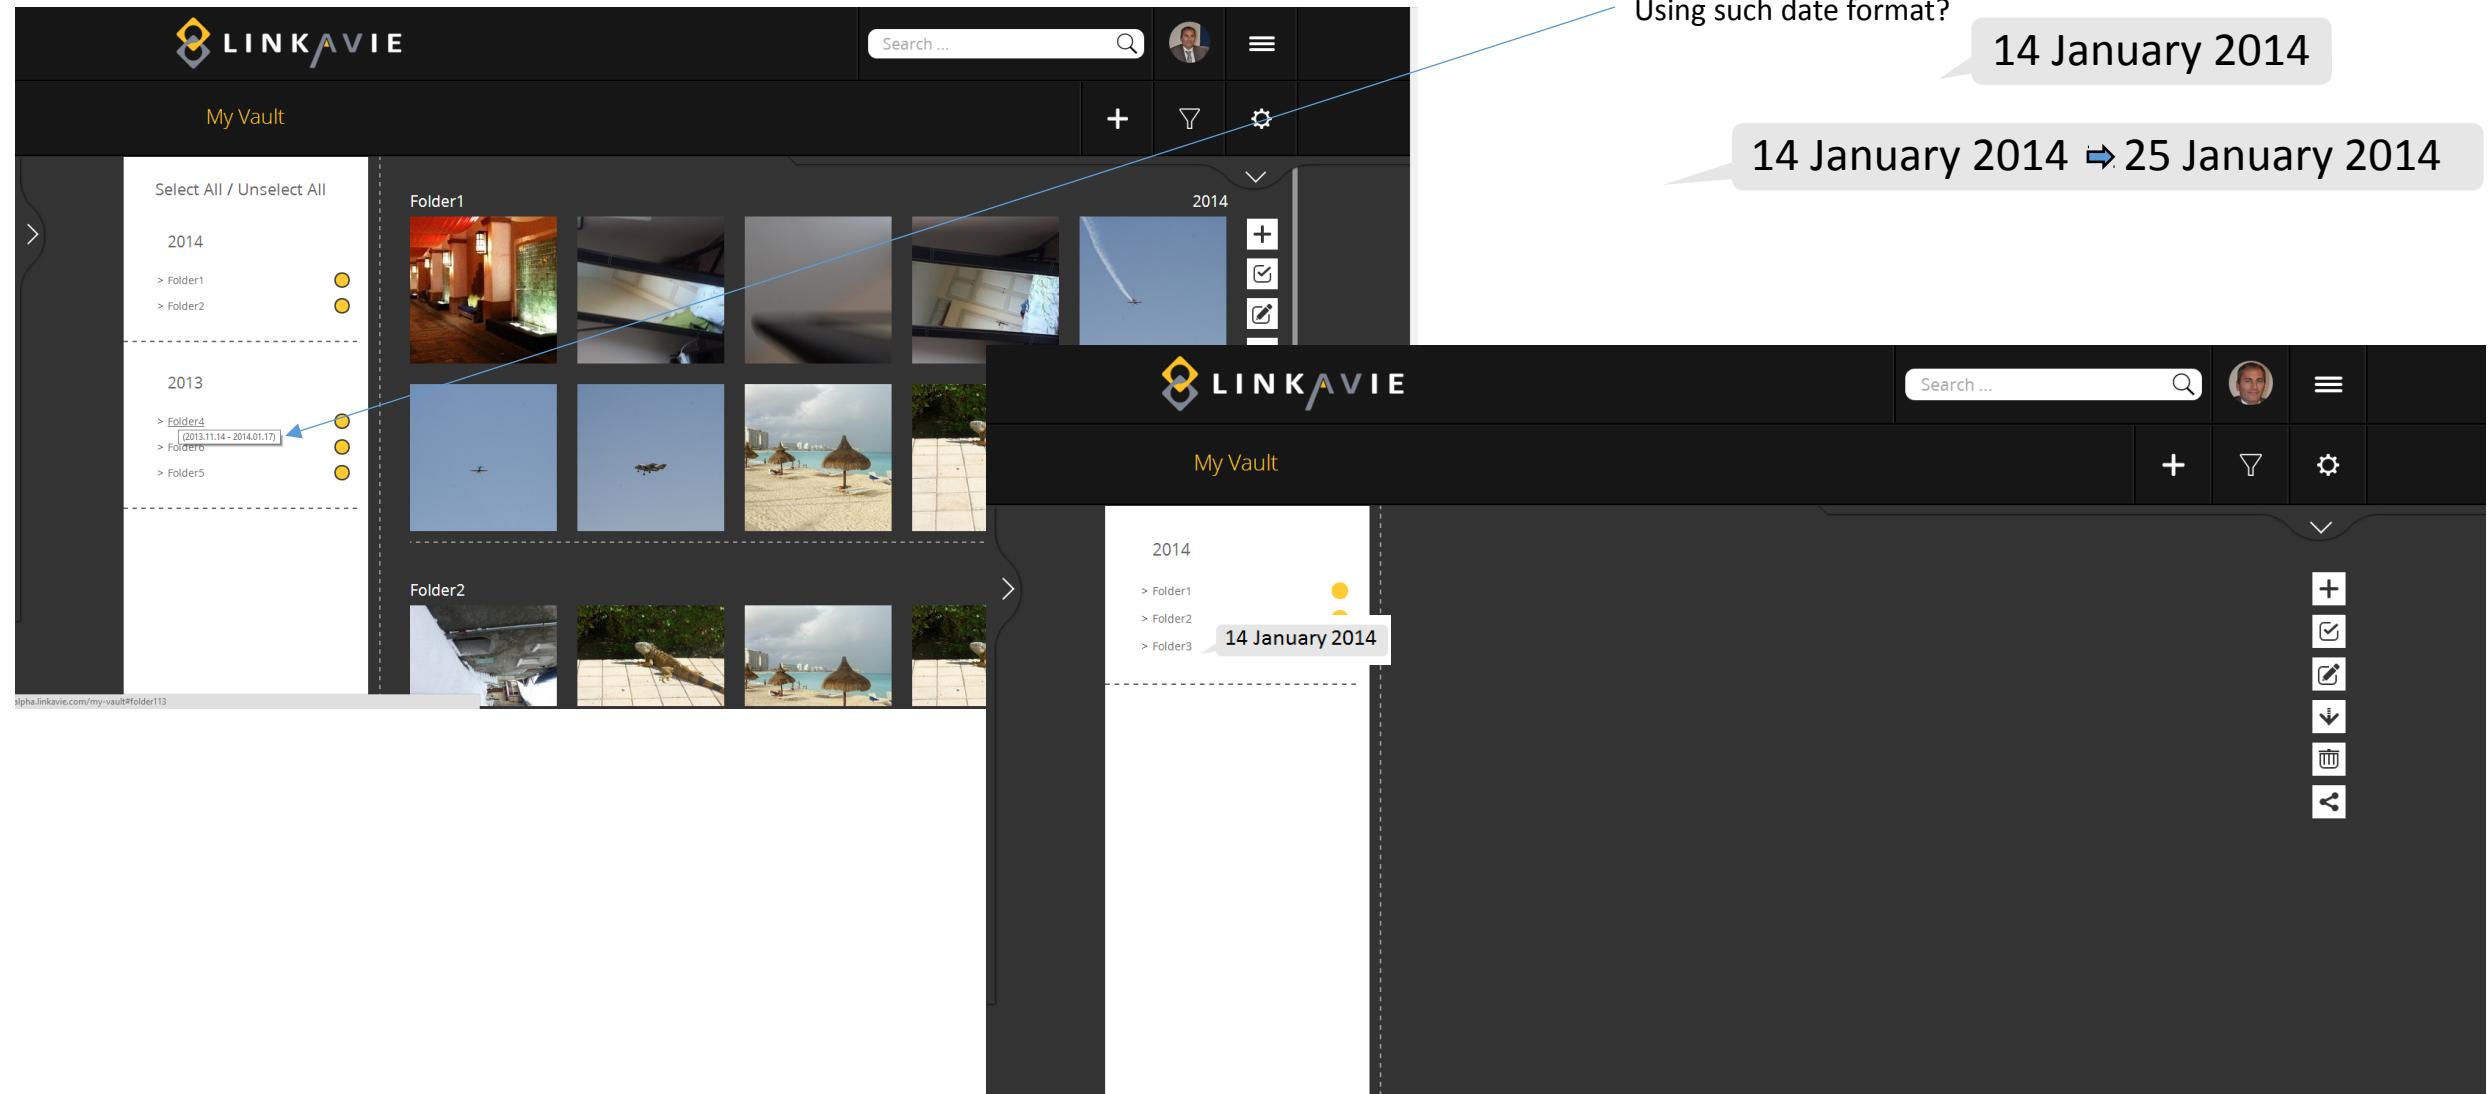

Mouse over folders (Not in alpha specs – add a feature request)

To be improved

OK, can we make it more visual (a bit difficult to read now)

Move pictures to another folder

Feature is working well,
Few stuff

"Select a target folder" + make sure
that the word "folder" is not cut

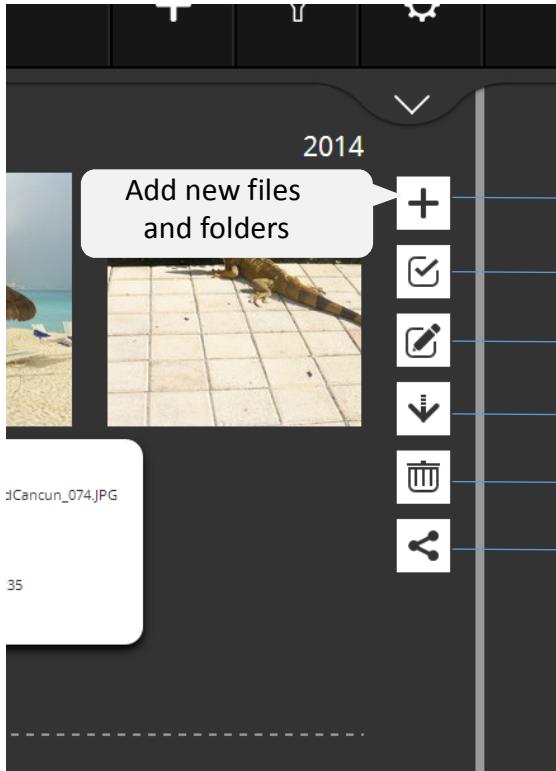

"Move"

Files replaced!

To change with :

Files moved to the target folder successfully

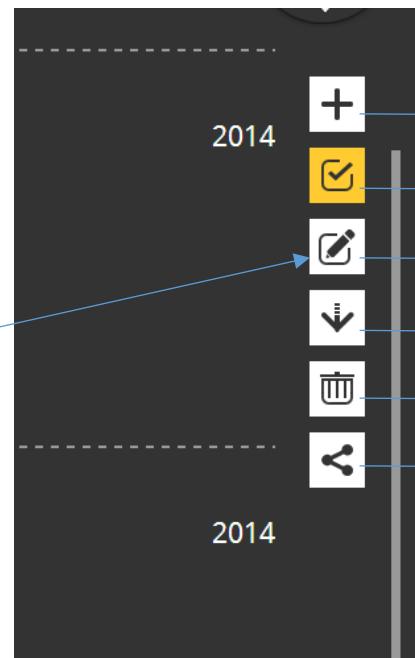

Mouse over buttons

Mouse over buttons (Folder level)

- “Add new files and folders”
- “Go to File file level”
- “Edit folder properties”
- “Download selected folders”
- “Delete selected folders”
- “Share selected folders”

To be added

I think this button is confusing
Because complete different action
when at file level. I would put another
button at file level, any good idea of
other button for “Rename”. Or we
could keep this one and put a “setting”
button at folder level ? Anton ?

Mouse over buttons (File level)

- “Add new files and folders”
- “Go back to folder level”
- “Rename selected file(s)”
- “Download selected files”
- “Delete selected files”
- “Share selected files”

Creation date: date of creation like « 01 aug 2013 »

Start date of first chapter – End Date of last chapter

Default library : My life album

Make default
album a bit
smarter visually

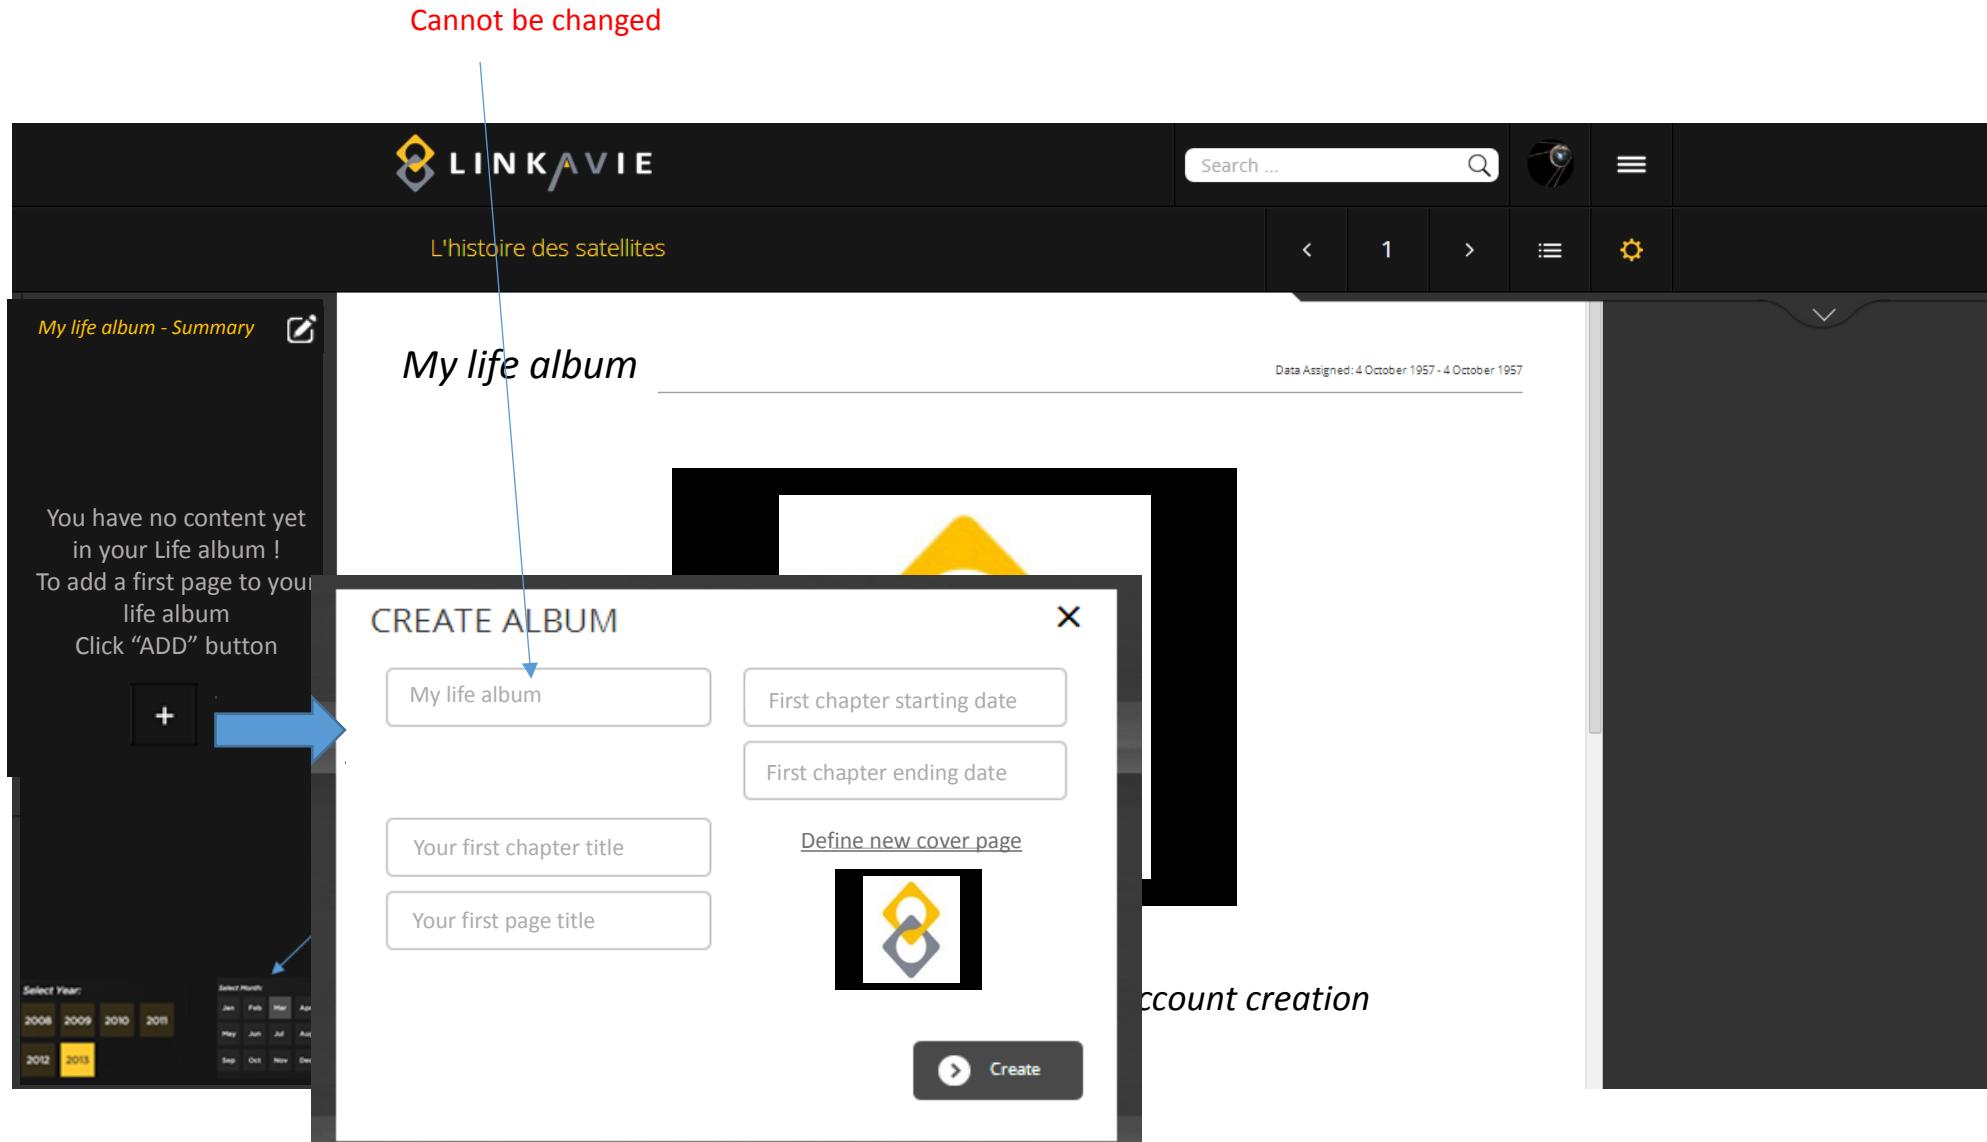

Album page 0 : Cover page of My life album default album

When user clicks on Library My life album, he is redirected to the My life Album page 0 / cover page, and the sliding summary opens. First time, message to add first page/chapter

The screenshot shows the Linkavie application interface. At the top, there is a navigation bar with the Linkavie logo, a search bar, and various icons. Below the navigation bar, the title "L'histoire des satellites" is displayed. The main content area features a large thumbnail of the "My life album" cover, which has a yellow and grey abstract logo. Below the thumbnail, the author is listed as "Author: Marcel Silvey" and the creation date as "Creation date: Date of user account creation". To the left of the main content, a sidebar titled "My life album - Summary" is visible. It contains a message: "You have no content yet in your Life album! To add a first page to your life album Click 'ADD' button" and a large "+" button. At the bottom of the sidebar, there are two date selection dropdowns: "Select Year" (showing 2008-2013) and "Select Month" (showing Jan-Dec). A blue arrow points from the text "By default, no date" at the bottom right to the "Select Month" dropdown.

Start date of first chapter – End Date of last chapter
By default, no date

My life album: creating first page/chapter

Start date of first chapter – End Date of last chapter
By default, no date

Library

[Excel ref:](#) Save an Album in one of the user defined Library shelves
