Edit Mobile event fields

Delete mobile event

Upload pdf invoice

1/ Customer setup an Event in his LINKAVIE account

2/ A commercial offer is made to customer who signs an agreement (paper) for Mobile event

3/ Create Mobile event code in Back-office +

Event id:

| E0125 |

PO number:

| PO_20140505-10000 |

Automatically created

Mobile Event Start-Date:

| Enter Start-date |

Mobile Event End-Date:

| Enter End-date |

Check that the Mobile event period is inside the Event collaborative period
(Between Event creation date and the Event expiration date)
Else, Event code cannot be generated

[Generate event code]

4/ Send event code to customer => Customer generates his event id from the Event settings

5/ Customer event id is fill-in automatically into back-office

6/ LINKAVIE send invoice to customer (manual) / Payment status and pdf invoice upload manually in Back-office
