To be DONE: cosmetic

if user clicks on "create new folder",
then the select folder should go back to "select an existing folder" (if there were a folder name selected)

Date format here: 2013/11/25 (Not 25 November 2013)

By default end-date = begin date

In order not to confuse the user, in case we are doing "Create folder + upload files" at once, then because the folder is created right away, please change the message "your folder has been created successfully!" by "your folder has been created successfully…Your files are now uploading!"

ADD NEW   ✕

Select Folder ▾   or   create new folder

> Add Files

Drag and drop your file...

[✕] [✕]

2013_06_Meet 2013_06_Meet

ADD NEW   ✕

Select Folder ▾   or   Create New Folder   +

Define folder date or period:

Beginning date   📅

Do you want to define a period ?   ☑

End date   📅   Hidden if "period" not selected not selected

"ADD Files" or Drag&Drop your files and click on "Upload Files"
to upload files in your new folder
Or simply click "+" if you just want
to create a new folder

> Add Files

Drag and drop your files here
